SUGGESTED SPECIFICATIONS

- The Contractor shall install a 2 Channel Service Column "Centrepoint by Skirtec", as indicated on the tender drawings.
- Outlets shall be mounted on one side of the duct with no visible cover joins adjacent. The column shall be powdercoated or anodised.
- Power and Data plates shall be mounted by way of Skirtec manufactured mount kits (pre-installed) and secured into the dedicated screw channel.
- The Contractor shall install the duct in accordance with Skirtec Installation Instructions and comply with all current Australian Standards and ACMA wiring rules (cabling, earthing and terminations).
